

Mobile Turbo 36"

The Multifan Mobile Turbo 36" is designed to circulate air. With the included wheels, the fan is portable and easy to use and replace. The fan exhibits exceptional performance in high moisture, corrosive or wet environments. Ideal for indoor and outdoor entertainment venues, amusement parks, factories and assembly plants, and greenhouses.

Features

- Class F Insulation allows ambient temperature to 104°F
- Corrosion Resistant
- Rated IP55 for outdoor use and wash-down duty
- Polypropylene blades that are corrosion resistant and light on the motor
- Motor is C-UL and UL 507 certified (outdoor use)
- 3 Year motor warranty

Applications

- Ideal for people cooling
- Emergency ventilation
- Livestock barns
- Outdoor or indoor sports complexes
- Amusement parks
- Factories and assembly plants
